Pancosma exhibits at IPPE, USA

Date of publication : 1/3/2019

Company : Pancosma SA

Source : Pancosma

We are delighted to participate again as exhibitors at the International Production and Processing Expo, IPPE in Atlanta, USA, from February 12-14, 2019.

Our team will be pleased to welcome you on its booth located in hall B – n° 7511. Come and visit us!

For this 2019 edition, we are proud to celebrate our 70 years.

Pancosma is a global pioneer in developing, manufacturing and distributing a wide range of innovative feed additives.

The company is based in Geneva, Switzerland and is present in 75 countries worldwide.

Among various solutions, we provide a large range of performance enhancers branded under XTRACT® products.

Based on the use of active ingredients naturally occurring in nature, different solutions are offered to the market to support production efficacy. Pancosma XTRACT® best sellers are recognized worldwide for their transparency in composition, their guarantees in actives content (achieved thanks to ISO-Fusion technology® manufacturing process) and for their unique mode of action known as Intelligent Gut Action (IGA®).

During this expo, Pancosma experts will as well promote B-TRAXIM® 2C, a unique range of single or combined glycine based organic trace minerals (Zn, Cu, Mn, Fe...) with a patented crystalline and polymer structure to improve profitability, manufactured with ISO-Fusion technology® ; SUCRAM®, an intimate and patented combination of high-intensity sweetener with potentiators and enhancers to improve feed intake; and flavour range PAN-TEK®, standardized combinations of olfactory and gustatory-stimulating molecules to make your feed more attractive, also with specific ISO-Fusion Technology® for unique properties.

We look forward to seeing you during this event!
